EJIW EAST JORDAN
IRON WORKS EST.1883

Detectable warning plates help warn the blind or visually impaired of an approaching street.

Engineered to outlast the footpath, these long lasting cast iron products withstand the many rigorous urban conditions.

“Set them and forget them.” said Simon Bottomley, HaveStock’s General Manager. “The durability of cast iron makes these the most cost effective choice for a detectable warning system.”

- ✓ Natural finish meets colour contrast
- ✓ Slip-Resistant textured surface
- ✓ Corrosion resistant

- ✓ Easy to install
- ✓ Maintenance free
- ✓ Permanently embedded into the concrete

The cast iron warning plates are made by HaveStock’s parent company, East Jordan Iron Works (EJIW) in Michigan, USA.

Cast iron is an environmentally responsible product that is completely recyclable after its useful life.

HaveStock is stocking the EJIW detectable warning plates at their warehouses in Brisbane, Sydney, Melbourne and Perth.
